said applications transferred from said backup device run normally and does not copy

N01311US -4-

- 3 wherein said portable cellular phone stores said application information having
- 4 undergone the verification processing in said portable cellular phone in an executable
- 5 format.
- 5. (Currently Amended) The method for backing up and for preventing unauthorized
- 2 copying of the applications of the portable cellular phone according to Claim 3,
- 3 wherein said portable cellular phone stores said application information having
- 4 undergone the verification processing in said portable cellular phone in an executable
- 5 format.
- 6. (Currently Amended) The method for backing up and for preventing unauthorized
- 2 copying of the applications of the portable cellular phone according to Claim 1,
- 3 wherein said portable cellular phone terminates processing when said identification
- 4 information transferred from said backup device does not match the identification
- 5 information of said portable cellular phone.
- 7. (Currently Amended) The method for backing up and for preventing unauthorized
- 2 copying of the applications of the portable cellular phone according to Claim 1,
- 3 wherein said portable cellular phone, when said portable cellular phone uses said
- 4 application information being stored in said backup device at a time of changing a
- 5 type of said portable cellular phone, compares said identification information
- 6 transferred from said backup device with said identification information of said
- 7 portable cellular phone and copies said transferred application information only when
- 8 both of said identification information match each other.
- 8. (Currently Amended) The method for backing up and for preventing unauthorized
- 2 copying of the applications of the portable cellular phone according to Claim 1,
- 3 wherein, when data is transmitted and/or received between said portable cellular
- 4 phone and said backup device, information indicating a mode is added to said data.
- 9. (Currently Amended) The method for backing up and for preventing unauthorized
